EDUCATION

- **International Institute of Information Technology, Hyderabad** Hyderabad, Telangana
B.Tech in Computer Science, MS by Research in Computational Linguistics CGPA: 7.9 Aug. 2024 – Present
 - **Coursework:** Data Structures and Algorithms, Operating Systems and Networks, Data and Analysis, Computational Linguistics, Algorithm Analysis and Design, Probability and Statistics, Linear Algebra, Discrete Structures, Computer Programming, Digital Systems and Microcontrollers,
 - **Ongoing:** Design and Analysis of Software Systems, Introduction to Natural Language Processing, Machine Data and Learning.
- **Rashriya Indian Military College, Dehradun** Dehradun, Uttarakhand
8th Grade to 12th Grade June 2018 – May 2023
 - RIMC is a premier Category 'A' institution under the Ministry of Defence with a century-long legacy of excellence. Selected through a highly competitive All-India entrance examination (top 25 nationally), the curriculum emphasized leadership, disciplined living, and character building. As a "Cradle of Excellence," the school is renowned for producing national leaders, including several Chiefs of the Armed Forces and gallantry award winners.

PROJECTS

- **Churn Prediction**  (Oct 2025): Built an XGBoost-based churn prediction model with rich feature engineering, achieving **88% precision** on the Auto Insurance Churn dataset. Used SHAP for explainability to identify key drivers of churn, and deployed the model via Streamlit to enable non-technical users to make predictions and visualize influential features interactively.
- **Unix-like interactive shell**  (Aug 2025 - Sep 2025): Developed a Unix-like interactive shell capable of parsing and executing user commands with support for built-in intrinsics. Implemented advanced features such as I/O redirection, piping, job control, and command history management to mimic real shell behavior and enhance user interaction.
- **Distributed Collaborative File Editor**  (Nov 2025): Distributed collaborative file editor with multi-server storage and user locking for concurrent edits. Mimics Google Docs functionality, ensuring seamless real-time collaboration across storage nodes.

POSITION OF RESPONSIBILITY

- **E-Cell Corporate Team Member, IIITH:** Helped acquire sponsors and funding totaling to **15 Lakhs+** for multiple events including Megathon, Hyderabad's largest Student-Run Hackathon.

ACHIEVEMENTS

- **AIR 5234:** In JEE-Mains (Jan 2024)
- **AIR 7000:** In JEE-Advanced (May 2024)
- **Got selected at RIMC:** only 25 students qualify all over India, around 1 student per state. (June 2018)

TECHNICAL SKILLS

- Python, Pytorch, Numpy, Pandas, MongoDB, NLTK, SQL, HTML, C++, C
